

CSULB  
CECS100

Lab0

A- Answer the following questions in details using correct English

- Name
- Major
- Share a fun fact about yourself, that I will not be able to find out myself
- Where do you see yourself 5 years from now
- What do you expect to learn in this class
- What is your programming experience

Save your answers into a word document, convert to a **PDF format** and upload

B- Using a paper and a pencil go around the classroom, introduce yourself to other, and get to know each student's name and **two facts** about themselves. Keep this paper you will need for another lab
