Lab1
Precise Instruction

- 1- Write the precise steps to buy a new tennis shoes
- 2- In groups of two:
 - a. Give your friend the precise steps to draw something (a car, a polygon, ..) without informing your friend about what you want him/her to draw. Have your friend follow your instruction and guess the name of the drawing. (exchange roles with your friend)
Include the instructions in a word document, take a picture of the shape your friend drew based on your instruction and insert in the same document
 - b. When done with a
 - i. Give your friend the precise steps to buy a new car
 - ii. Get the steps to plan for a vacation (travelling overseas)

Critique (Check) each other's instructions (Apply the steps). What was wrong in your friends instructions?

Insert both instructions in the same word document above with what you think was a good step, or was a missed piece of instruction.

Upload as a pdf before the due time at the end of the lab period.
